### 7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Vision, Mission and Objectives of the institution clearly points towards a value based education. The college with its mission "Higher Education to Rural Masses" is a multi-disciplinary college established in 1990. The vision of the college is to provide higher education to rural and educationally as well as socially backward masses. As the vision of our institution, we are imparting value based education to rural and socio-economically backward students at affordable cost with knowledge and skills. College makes consistent efforts in fulfilling its social responsibility toward the downtrodden sections of society. The College is situated in rural drought prone area. There was no facility of higher education in the orbit of 40kms from Chakur. Therefore, Lokmanya Sr. College Chakur (former name of this college), with Arts and Commerce faculties, was started. The main objective of this institution is to bring these socially disadvantaged, educationally backward people at par with others through education. Education to girls was mostly neglected by the society. In accordance with mission statement the HEI gives exposure to the girl students to get an opportunity to participate in every curricular, extracurricular and extension activity very activity. The students from Chakur and nearby areas seek admission in our college. We humbly believe that the success of our college can certainly be observed from women empowerment in nearby villages which remains a distinctive feature of our Institution. The number of girl students is improving. This college is an 'oasis' in the educationally backward region. Since its inception, it has come a long way

establishing it as a credible torchbearer of educational movement in rural backward region. This college has been steadily working for the empowerment of women and the upliftment of backward communities. As a result of the purity of heart, sincerity of purpose and commitment to work, we can achieve our goals.

Most of The students in the college are first generation learners. Their parents/ guardians are often engaged in earning bread and butter for the family. Hence they can't allocate a specific time to look after their wards. Though they are from rural and poor background but they are not poor in talent and knowledge. Our college staff identifies their talent and encourages them. From the beginning the college has taken immense efforts to render this vision fruitful. The college aims at creating a hatching ground for the students to develop their hobbies and achieve success in life. The college offers BA, BCom MCom conventional and professional courses for learners.
